On Call International: Searchlight TRIS
A highly-evolved system for monitoring emerging threats and live incidents in real-time on a global scale.

Create your account:
1. Visit https://oncall2.anvilgroup.com/Portal/registration
2. Fill in the information on the registration page.
   - Use your KSU email address. Your KSU email address will become your user name.
3. You will be sent an activation link upon completion.
   Remember: This could be sent to your junk mailbox

*Registering an account is required when accessing Searchlight for the first time. If you have already created an account in TripHub, the mobile app, use the same credentials. There is no need to create another account in that case.

Country Information:
1. Click “Country Information” on left side of dashboard.
2. Select country or area of interest.
3. Click “View” to navigate to the country page.
4. A list of data sources will be made available. Click on any option to display the info reading pane.

Interactive Map:
1. Return to Dashboard
2. Click the menu icon on the top right corner of the screen. The visual map options will appear.
3. Click “countries” to reveal the country risk levels overlay options.
4. Select the risk levels that you would like displayed on

Create a Travel Brief:
1. Click “Create Travel Brief” on left menu.
2. Select destination country, area or city.
3. Click “Next”, Select info you wish to include in your travel risk brief.
4. Click “Next”, Select PDF or display as a web-page.

Understand Threat Levels:

TRIS uses numerical indicators 1 to 5 as a guide to the level of risk associated with an incident.
Click “Security Advice” on the left side and the definition option will appear if you would like to read the full description of each threat level.
These levels are for specific conditions and may vary from the Department of State Travel Advisory levels.
On Call International: TripHub (Phone App)
A mobile app resource to review trip information to stay informed during travel.

Create your account:
1. Download TripHub from Apple, Google, or Amazon app stores.
2. Allow access to your location.
3. Enter membership code 1000 before signing in (Required).
4. To create an account click “Not Registered” at the bottom of the page.
5. Complete the Registration page. Make sure to use your KSU email address. This will become your user name.
6. Upon completion, check your email for the activation link.

*Registering an account is required when accessing Searchlight for the first time. If you have already created an account in TripHub, the mobile app, use the same credentials. There is no need to create another account in that case.

Alert Settings:

Add New Alert Preferences:
• Click “add new” on alert screen
• Search the city or country you want to add and select it.
• Once the city loads, you can turn on any of the threat levels.

Manage Alert Settings:
• Go to settings and find “Manage Location Alert Settings.”
• Click on “Manage” to edit alerts per country/city that you receive.

Add Alerts Based on Your Location
• Go to settings and find “Manage Location Alert Settings”.
• Click on “Manage” and select desired threat levels

Incident Alerts:
TRIS uses numerical indicators 1 to 5 as a guide to the level of risk associated with an incident. Click “Security Advice” on the left side and the definition option will appear if you would like to read the full description of each threat level. These levels are for specific conditions and may vary from the Department of State Travel Advisory levels.

Travel Advice:
Travel advice allows you to review important information for any country or major city. To change country or city, click the magnifying glass icon at the top right of the screen.
