EXCHANGE STUDENT PROOF OF FINANCIAL SUPPORT

You are required to certify that you will have available funding for your exchange program at Kennesaw State University (KSU), not including travel expenses. KSU does not provide funds for financial aid to international students. The financial statement must show amount in US$ from your institution(s) or financial support must be sent to KSU in order to receive a DS-2019. You may also need an original statement along with the KSU DS-2019 you receive to prove to the United States Consulate that you have sufficient funds for your studies.

1) Currency must be clearly marked on financials with English translation if necessary. An online currency conversion can be used if funds are not in USD$. Print the conversion and submit with the bank statement.

2) All financial statements must also be submitted with a sponsor letter, unless the funds are in the student’s name. The sponsor letter must include a signature and contact information. Acceptable affidavits include: a personal letter, a financial guarantee from an institution, an I-134 form, or the KSU affidavit form (see page 2) which is most common. We need an I-134 if the sponsor is a US citizen or Permanent Resident.

3) We will accept financials from the student and in addition, up to 2 sponsors. All statements must show the account holder name(s), the financial institution name, and contact information, such as an address, website, and telephone number. Documents must be verifiable if we need to contact the institution. If a statement has more than one sponsor listed, then an affidavit is needed from both sponsors to show agreement in educational funding.

4) No statement will be accepted if it is a retirement account, fixed or frozen account. Any such account will need additional proof that the money is liquid and usable for educational purposes at the time tuition payments are necessary. We will not accept assets such as a business or property declaration.

5) Statements from a business account, showing ONLY the business name, require additional proof of ownership and or sponsorship for the student. We may require that the business make a statement that the funds can be used for educational purposes of said student.

6) Account statements need to be within 6 months of the program start date. Funds may need to be proven that they have been in the account for more than 3 months in some cases. Large sums of transfers not in the account for more than 3 months will need to have a paper trail, proof of transfer, and if necessary an additional affidavit of support.
# STUDENT STATEMENT OF FINANCIAL ELIGIBILITY

Source of Funds (documents should indicate the financial resources in US dollars)

<table>
<thead>
<tr>
<th>Source of Funds</th>
<th>Amount</th>
